FALL plowing is going on briskly. Many farmers prefer to plow as long as the weather permits and then thresh after the ground freezes up. This season the crop sown on fall plowing did very much the best and there is getting to be a general feeling that on an average, even in this region, it pays to plow in the fall. Occasionally spring plowing turns out best, but it is the exception. The rule is in favor of fall plowing.

A PRAIRIE fire started south of Beaver lake on Wednesday, October 2nd, and swept north for several miles on both sides of the lake. A number of settlers lost heavily. W. Bloss lost hay, grain, stable and two pigs. W. Neale lost hay, grain, stable, team of horses, set of double harness and had a hay rake and saddle badly damaged. The team was in charge of Mr. Neales' oldest son and were attached to a hay rake. When the fire was seen to be coming Mr. Neale attempted to burn the grass around the horses to protect them. The horses became startled and ran away, and finally became tangled in the harness and were caught by the fire and burned. Young Mr. Neale wore a leather coat and soft felt hat and these saved his life. His face and hands and the soles of his feet were badly blistered. Several Norwegian settlers living southeast of the lake lost everything. The Messrs. Starrett lost 75 tons of hay, Douglas Black lost hay and stable and had his house damaged. Other settlers lost fencing. An account of the loss on the east side of the lake, if any, has not come to hand.

F. FRASER TIMS, M. L. A., for Victoria, returned from Regina on Monday's train.

W. W. DAVIDSON, of the Massey-Harris Co., visited Edmonton on Monday's train.

J. W. CLARKE, general agent in Alberta for the Singer sewing machine, arrived from Calgary on Monday's train on a business trip.

FRAUDS: By an order contained in a circular issued by the post office department dated Oct. 1st, postmasters are requested to refuse hereafter to issue money orders in favor of "Fisher & Co." New York, N. Y. "The Publishers of Heart and Hand," Chicago, Ill.; "W. T. Thomson," Chicago, Ill., information having been received from the United States postal department that money orders so ordered will not be paid.

THE Winnipeg Tribune's account of the recent field trials held at St. Boniface, Man. has the following; "Mr. Bruce, of Calgary, has probably the finest kennel in America of black and tan setters. The best individual specimen of that breed is owned as far northwest as Edmonton by Mr. John Brown. Experts of this breed claim this distinction for his Gordon setter Dash." Mr. Brown's well known pet is certainly a very handsome animal.

E. N. RAYMOND was charged on Tuesday before M. McCauley and C.W. Sutter, J.P's with selling liquor without a license. The occasion was the auction sale of his household effects on Saturday, the liquor being offered as part of the effects. The evidence of license inspector Purches was taken which established the fact of the liquor being offered, but as the liquor was a part of what Mr. Raymond had purchased under a former hotel license the magistrates did not agree as to the propriety of enforcing the somewhat severe fineprovided in that case, and as a consequence the case fell through. Bown for the license inspector, Emery for defendant Raymond.

JAS. O'DONNELL, Indian farm instructor at Riviere Qui Barre, has finished threshing on the Indian farm, and had a return of 46 measured bushels of wheat and 64 of oats to the acre. The quality of the grain is excellent. In the Glengarry settlement in the same vicinity the grain is good in all varieties and the yield excellent. The Kansas settlers who came in a year ago last spring and who are in that settlement, had their land back set last year and were able to put in their crops early. Consequently their grain ripened in good time. Morinville settlement also has good crops of excellent grain, but a great deal of it was uncut when the storm of a fortnight ago struck it and it was flattened down and made very difficult to cut. There would be a considerable loss by shelling in getting the grain off. In the St. Albert settlement proper the crops are also good. Messrs. D. Maloney, J. O'Donnell and W. Cust have as good crops as they ever had.

SUPREME COURT.

Judge Scott sat in chambers on Tuesday, and a large amount of important chamber business was transacted.

On Wednesday the case of Queen vs. Ring was called. Defendant not appearing his bail was declared forfeited, and his bailsmen liable for $400 each.

Degague vs. Chave & Hetu. Action to recover an amount in dispute over the erection of the Jacques Cartier bank building. Defendant claimed a written agreement and plaintiff claimed a verbal variation from the written agreement. The case was not concluded. Beck for plaintiff, Bown for defendants.

The criminal cases to come before the court are against Desormaun of St. Albert for cattle killing and Zucht, of Stony Plain, for arravated assault committed last spring upon A. V. Caldwell.

The civil cases which stood over from last court, some of them having been standing for two years, are the only ones yet set down for trial and it is doubtful if any new cases can be taken up at the present sitting.

The criminal case of Queen vs. Hewett, rape, is going on to-day.

STORING OF POTATOES.

A dealer who handles a large quantity o potatoes says that a dug out, with door facing south, is the best of all plans to store potatoes. It should have bins along each side of a central alley with 6 inches of air space left underneath by using a boarded floor. Shafts should be placed along the sides half way to the centre through which the potatoes can be run in from a wagon, and air get free circulation. These shafts can be closed one by one as the weather gets colder. As near the freezing point as possible is the most suitable temperature, say 34°. If the bins are small with air spaces between the potatoes may be stored 6 feet deep and the drier the better. The poles to divide the bins will support the wood work of the roof and alternate layers of earth and straw will make the best and lightest covering. A load or two of horse manure put on top of all as the cold becomes severe will insure safety from all frost. Double doors with a backing of manure outside are necessary and they should only be opened in fine weather. Heating at the first stage of storing, frost later on, and draughts of cold air through unnoticed crevices are the special dangers of potato storing. If the access to the potato cellar is managed by having it behind a bank barn, with a door through the back wall of the barn one of the great difficulties of successful root storage will be got rid of. The moderate temperature of the stable will ensure safety from drafts of frosty air, and there will be perfect freedom from risks of that sort, while the constant convenience of access will be very valuable. In such bins no work in turning will be wanted, though once turning over may be an advantage.—North-West farmer.

EDMONTON BULLETIN, OCTOBER 10TH, 1895.

TERRITORIAL FINANCES.

The fact that the funds at the disposal of the Northwest government are not keeping pace with the needs of the country is brought very closely home to everyone by the reduction of some $13,000 in the public works vote from that of last year, although the increase of settlement was held to warrant an increase in the number of the electoral districts from twenty-six to twenty-nine. At the same time the increase of public schools has rendered necessary a readjustment of the grants with a view to reducing the average expenditure per school or per pupil. It has been also found necessary to reduce the grant in aid to hospitals by $500, while the need for increased aid is very strongly felt. In small matters as well as large it has been found necessary to economize, if it can be considered economy to stint the expenditures for charity, for education and for public improvements in a country circumstanced as this is. As is well known, under the scheme of confederation the people of each province receive a return of a part of the taxes which they have paid into the federal treasury for the purpose of carrying on their local government. In the case of the several provinces this amount is based on certain fixed conditions and passes to them by statutory provision. The people of the Territories contribute towards the general revenue just as do the people of the provinces, but they do not receive a return for local government purposes on the same fixed conditions. Nor has it been altogether desirable up to the present that they should. The recognized need of securing the development of the Territories by proper expenditures outside of the immediate requirements of the people already here makes it desirable that the funds available should be proportionately larger than under the terms of a provincial subsidy—that they have not been larger does not matter to the argument. Therefore from year to year parliament has voted an amount to meet the expenses of government in the Northwest, which was increased from year to year to a greater or less degree as the circumstances seemed to require. That is to say parliament used to vote an increase yearly; but apparantly it has ceased to do so. For the last two years the vote has practically been the same, while as everyone knows the needs by reason of increased population have increased in Northern Alberta at least 100 per cent. The increase here and elsewhere is what makes a like amount to that formerly at the disposal of the Northwest government give proportionately smaller results. It must be clearly understood that just as it is the first duty of the assembly and its executive to see that the needs of the Territories are fully met, it is not less the duty of parliament and the Dominion government towards the Dominion as a whole to see that the Northwest does not get more than its share, or in other words more than its needs. Therefore while it is the business of the Northwest executive to make out its best case and put itself in its best position for getting a continual increase of subsidy, it is the business of the Dominion government to make out its best case and put itself in its best position for keeping down that increase to the lowest possible point, or on occasion turn it into a decrease.

As long as the present more or less flexible arrangement continues it is plain that the amount received from year to year by the government of the Territories must depend to a very great extent upon the manner in which the absolute needs of the Territories are placed before the Dominion goverment and parliament by the Northwest assembly and executive in their handling of the money already at their disposal. If the subsidy received in a certain year is expended in a constitutional manner on objects of evident necessity and so as to produce good results, the best possible case is thereby made out for such increase of subsidy as the circumstances of the country require, as stated by the Territorial executive. But if on the other hand the money voted by the Dominion parliament on the specific understanding that it is needed absolutely for roads, schools, etc., after being specifically voted again for those purposes by the assembly, is taken by the Territorial executive for a purpose that is universally acknowledged to have been the proper work of the Dominion, and is thereby withdrawn from the purposes for which it was originally intended, the natural inference is that the money can be spared from those purposes. That in fact they have been getting more than they needed in the past. And when this action is taken in violation of the intent of parliament and the specific vote of the assembly, the case against an increase of subsidy for the Territories is made out as strongly as it well could be. If the Territories could spare $40,000 last year from ordinary purposes, as the executive have been at all pains to prove, and as the majority of the assembly practically agreed, why can it not spare $40,000 next year as as well?

For what reason are we so ready to economize in our road expenditures, school grants, and even hospital aid in the face of the most pressing need of an increase in all these amounts? Is it because the Dominion government was so lost to all sense of its obligations that it would have allowed a very large number of deserving but unfortunate settlers to starve last winter. If that were the fact—(there is not a title of evidence in suport of the statement as a fact)—and the assembly had deducted the necessary amount from its several ordinary expenditures for last year, and voted a specific amount for relief, it would have stood as an extraordinary expenditure and would not have prejudiced our claims as to increased subsidy for the current year—indeed would have strengthened those claims. The executive of the day saw fit to do otherwise. Money that was intended for roads and schools was taken for relief works, and when the time for payment of the school and road money arrived it was not there and did not get there until the Dominion vote of the current year become available. When the assembly met at its recent session it had to vote estimates on a basis of $39,000 of an overexpenditure of last year, or in other wards had to do this year what it should have done last year had the necessity really existed. The difference in the position is that if the money had been voted by the assembly last year the assembly and the executive would have been in a position this year to show cause why it should be recouped and the grant for ordinary necessities increased. By expending the money without proper authority on the strength of an alleged understanding with a single member of the Dominion cabinet, which alleged understanding has not been fulfilled, they have been compelled to shelter themselves behind the prestige of the Dominion government, and to place themselves in its hands. By doing so they have rendered themselves powerless to enforce the claims of the Northwest for an increase of subsidy; the proof of which rests in the fact that no increase was given. Twenty-seven thousand dollars of the amount voted last year was required for special purposes. The total vote of this year was practically the same as last year. They might have claimed that the $27,000 was to increase the amount for ordinary expenditure. They did not choose to do so. They specifically claimed, and supported the claim by a letter from the minister of interior, that the amount was intended to partially repay the expenditure on relief. If their claim is admitted the fact stands that while we have received no increase of subsidy to correspond with the increase of our necessities, we did not even get the amount expended in relief recouped, being still short some $15,000. This is the actual and natural result so far of the policy adopted by the executive. That it is a substantial resnlt we know to our cost in our roads, schools and hospitals, but we do not yet know what the final result will be. We can only expect that with people so ready to economize as we have shown ourselves to be, we will have abundant opportunity to practice that virtue.

SOUTH EDMONTON EXHIBITION.

The South Edmonton exhibition was held at South Edmonton on Monday last, and was well attended. The show of horses was good, the entries in all the classes were filled and the quality of the exhibits would do credit to any eastern county fair. The cattle exhibits were not so large, but those shown were a very good average lot. There was very little competition either in this class, or in pigs or sheep, most of the animals being awarded prizes without opposition. The same remarks will apply to poultry, but while the exhibits of stock outside of horses were not as large as they should be, the quality was fully up to the average.

Inside the building the display of vegetables by D. Ross was the first thing to meet the eye of the visitor and was a credit to the exhibitor and a show in itself. Outside of this exhibit the show of both grain and vegetables were not so good as usual. No doubt the small number of entries in grain is easily accounted for by the lateness of the harvest and the fact that few farmers are through threshing yet. In the kitchen and dairy department there was keen competition,excepting in cheese, of which there was but one exhibit. The ladies did their share to make the show a success by filling the entries in their class with a very respectable sample of their work, and in some cases it was very hard for the judges to decide to which article to award the prize.

The following is the prize list :

THE DELEGATES' REPORT.

At the town council meeting last night the following report of the delegates to Ottawa in regard to a bridge and railway extension was presented:

EDMONTON, Oct. 7th, 1895.

To the Council of the
Town of Edmonton.

GENTLEMEN: We have the honor to submit for your information, the following report of our visit to Ottawa, Montreal and Toronto, regarding railway and other matters of interest to the town and district, which matters your honorable body was good enough to appoint us a delegation to attend to.

Our first stop was at Winnipeg. Here we saw Mr. Chipman, commissioner of the Hudson's Bay Co., and also Mr. Whyte, of *the C. P. Railway Company, and discussed* the object of our trip with them. Both were in favor of obtaining railway communication for Edmonton, and advised us to see Sir Wm. Van Horne before going to Ottawa.

Mr. Chipman could not state on his own responsibility the exact assistance the H. B. Co. would give to a steam railroad, but could promise at least the right of way and ample room for stations, yards, etc., provided the same run on H. B. Co., property. From Winnipeg we went direct to Montreal and the morning after our arrival had an interview with Sir Wm. Van Horne. The result of our interview, if not satisfactory, was definite. Briefly Sir William said

1st. The C. P. R. would not consider any scheme which would bind their own or any other company after 1896.

2nd. The C. P. R. would operate a line to the flat for freight and would not agree to maintain the same.

3rd. The C. P. R. would assist in building any line, steam or electrical, by giving special rates on rails and all material used in construction or equipment and also allow our line to handle empty and loaded cars vide letter Oct. 1st, '95.

4th. Sir William thought the proposed spur line via Mill creek too expensive and roughly estimated the cost of the part through the valley alone at $80,000.

After this interview we went to Ottawa, having arranged for an interview with Sir Mackenzie Bowell before his departure for the Northwest.

The Premier admitted the importance of not asking the town to contribute anything towards the erection of a bridge. He was willing to transfer the sum voted or to be voted for this purpose to a company which would build a bridge as good as the one proposed. Nothing could be done until another vote was made, as the present sum in the estimates was conditional to the town contributing $15,000. The premier distinctly stated that the government would not build a railroad bridge, but as stated before would transfer the sum voted to any company which might then erect a combined railway and traffic bridge. We also had interviews with Sir Adolphe Caron, Sir Charles Hibbert Tupper, Hon. G. E. Foster and Hon. T. M. Daly, and brought to their notice not only the bridge and railway matter, but the important and pressing question of the division of Alberta, both for judicial and political purposes, and a resident judge at Edmonton We called at the offices of the other members, but they were away from the city. We returned to Montreal and had a second interview with Sir Wm. Van Horne.

Before going to Ottawa we heard that Hon. Mr. Ouimet was to pass through Montreal on his way to Cacouna, and it was arranged that Father Lacombe should see him at the station. This was done with the result that very satisfactory assurances were given as to the erection of the bridge, and another interview at Ottawa arranged for. As Mr. Ouimet was to be away for some weeks, it was decided that Father Lacombe should see him alone and if advisable send for Dr. Wilson, who was to go to Toronto to interview the C. & E. railway people. At Ottawa Father Lacombe met the Hon. Mr. Ouimet, minister of public works, the deputy minister and the chief engineer. The minister of public works said that if Edmonton had not promised to assist in building the bridge it would have been built some time ago, and that if the government built the bridge it would be built on site No. 2.

In Toronto several interviews were had with Mr. Hammond and Mr. Osler, of the C. & E. Railway Company, and also in Winnipeg with Mr. Nanton, representing the South Edmonton townsite.

The C. & E. Co. will not extend their line at the present nor in the near future, and if any extension is made it would have to be done by the town or a company. In the event of an electrical railway being built the C. & E. Railway Company if operating their line after July 1896, would assist in the same way as the C. P. R. Co., had agreed to do, and the townsite trustees of South Edmonton would give the electrical railway company right of way through any property they owned or controlled and assist the scheme in any way they could. Enquiries were made in Toronto as to cost of such railways, etc., and as to a capable engineer in the event of such a line being built by the town. In this connection the acquaintance of Mr. W. T. Jennings, late of the C. P. R. engineering corps and later city engineer of Toronto, was made and he was induced to visit Edmonton. Mr. Jennings is at present engaged in making observations in order to be in position to make a full report as to the practicability of either a steam or electrical road between Edmonton and the station. As a result of our interviews with the persons mentioned and others we are convinced that in the interests of the town, not only should the bridge be built, but railroad communication be had with the C. & E. railway line.

We have the honor to be
Your obedient servants,
H. C. WILSON,
Mayor of Edmonton.
FATHER A. LACOMBE.
O. M. I.

W. T. Jennings, late city engineer of Toronto, who accompanied Mayor Wilson on his return, gave a verbal statement of his views on the bridge and railway matter. He very strongly favored actual railway connection rather than the temporary substitute of an electric railway. His suggestion was the formation of a company to build a railway bridge and a railway line to connect the town with the C. & E. line, suitable grades being available for the purpose. The necessary aid to be made up (1) By the usual government grant per mile of line, (2) By the amount which the government would require to give for the construction of a traffic bridge, and (3) An amount to be contributed by the town. This charter and the government aid could only be secured with the consent of the C. & E. Co. which holds a charter to Peace river. The council will hold a meeting with Mr. Jennings with closed doors on Monday forenoon. Mr. Jennings will probably start for home on Tuesday.

LEDUC.

This place was thrown into a state of excitement at two o'clock this afternoon by the sudden death of Mr. John Fagg, who dropped dead while unloading some fence poles from a wagon, through heart disease. Deceased came from Kansas last spring and *was just building on his homestead,* two miles west of the village. He leaves a wife and three children to mourn his loss. Preparations are being made for the burial in Edmonton on Wednesday.

Ratepayers, Notice.

The Voters' List of the Municipality of the Town of Edmonton may be seen at my office on and after Monday, the 23rd inst.

Any person may apply to have the said list amended on or before the first day of November next, (vide Sections 55 to 57, part 2 of the Municipal Ordinance.)

A. G. RANDALL, Town Clerk
Edmonton, 19th Sept., 1895.

BY-LAW No. 107.

A By-law to provide for borrowing on the credit of the municipality at large the sum of $3,630.00.

Whereas for the purpose of permanently improving and benefiting the town, the Municipal Council has incurred debts as follows:

Cost of and incidental to the extension of Cliffe street to the lower ferry,	$ 788 50
Costs of and incidental to the extension of McDougall street,	1491 50
Costs of and incidental to obtaining better railway and general traffic facilities for the town,	1350 00
Making a total of the sum of	$3630 00

And whereas it is expedient to borrow the said sum of $3630.00 for the purpose of paying the said indebtedness, and for that purpose to issue the debentures of the municipality whereof the principal shall be payable within twenty years from the date whereon this By-law shall take effect, and the interest whereof shall be payable half-yearly at the rate of six per cent. per annum.

And whereas it is expedient to provide for the repayment of the said principal sum by the creation of an equal yearly sinking fund.

And whereas the total amount to be raised annually by special rate for payment of the said debt by means of a sinking fund as aforesaid, and the amount of interest thereon, is $330.00.

And whereas the amount of the whole of the rateable property according to the last revised assessment roll is $957,863.00.

And whereas the amount of the existing debt of the municipality outside of the debt due for the current expenses of the year, is $24,362.23, incurred in respect of local improvements, and $24 700 00 incurred in respect of permanent improvements, whereof no part is in arrear.

And whereas the special rate on the dollar on the rateable property in the municipality according to the last revised assessment roll required as being sufficient to pay the said interest and create the said equal yearly sinking fund for the payment of the principal is thirty-five one-hundredths of a mill.

Therefore the Mayor and Council of the Municipality of the Town of Edmonton in council assembled, enacts as follows:

1. This By-law to take effect on the 2nd day of September, 1895.

2. The Mayor and Clerk of the Municipality may borrow upon the credit of the Municipality the said sum of $3630.00, and may execute and issue debentures of the Municipality to that amount in sums of not less than $500.00 each, repayable within *twenty years from the said second day of September,* 1895, with interest at the rate of six per cent. per annum, payable half-yearly; such debentures to be payable at the office at Edmonton of the Treasurer of the Municipality, and to have attached to them coupons for the payment of interest.

3. For the purpose of paying the amount which shall be required to be raised annually for paying the said interest, and creating an equal yearly sinking fund to be set apart for the payment of the said principal sum of $3630.00, a special rate of thirty-five one-hundredths of a mill in the dollar over and above all other rates and taxes shall be levied, (in the same manner and at the same time as the general municipal taxes) upon the whole rateable property of the municipality in each year for the period of twenty years, being the period during which the said debentures will run and within which the debt created thereby is to be discharged

4. Friday, the 30th day of August, 1895, between the hours of nine o'clock in the forenoon and five o'clock in the afternoon at the office of the Town C'erk, Edmonton, is hereby fixed as the day and hour and place for taking the votes of the electors for and against the By-law.

5. A. G. Randall is hereby appointed as Returning Officer, and St. George Jellett, Deputy Returning Officer to take the votes at the said time and place.

6. Friday, the 30th day of August, 1895, at the hour of six o'clock in the afternoon at the office of the Town Clerk, Edmonton, is hereby fixed as the time and place when and where the Returning Officer will sum up the number of votes given for and against this By-law.

Provisionally adopted in council this 7th day of August, 1895.

C. F. STRANG, Acting Mayor
[L. S.]
A. G. RANDALL, Town Clerk

Finally passed in Council this 30th day of August, A. D. 1895.

C. F. STRANG, Acting Mayor.
[L. S.]
A. G. RANDALL, Town Clerk.

Assented to this fifth day of October, A. D. 1895.

C. H. MACKINTOSH,
[L. S.] Lieutenant-Governor of the North-West Territories.

Government House, Regina, N. W. T.,
5th October, A. D. 1895.

NOTICE.

The above is a true copy of a By-law passed by the Municipal Council of the Municipality of the Town of Edmonton on the 30th day of October, A. D. 1895, and approved by His Honor the Lieutenant-Governor in Council on the fifth day of October, 1895, and all persons are hereby required to take notice that anyone desirous of applying to have such By-law or any part thereof quashed must make his application for that purpose to the Judge of the Supreme Court within two months next after the third publication of this notice or he will be too late to be heard in that behalf

A. G. RANDALL,
Clerk of the Municipality of the Town of Edmonton.
